<https://marianabelo.netlify.app/>

I'm currently living in Bahia, but I'm fully available to relocate to another state or country.

Objective

Work in a dynamic environment as a Front-End Developer, applying my skills in React, JavaScript, HTML, CSS, and TypeScript to build modern interfaces and contribute to the company's growth.

I am constantly learning and seeking challenges and opportunities that allow me to grow professionally and create creative solutions for different problems. I have diverse experience across several roles and sectors, demonstrating adaptability, flexibility, and strong learning capabilities.

Skills

- **Web development:** Experience with HTML5, CSS3 e Frameworks, JavaScript, TypeScript, React e Node.js. Familiar with database (MySQL).
- **Teamwork:** Ability to collaborate effectively, contribute proactively, communicate clearly, and focus on collective results.
- **Client Service:** Experience in sales, child supervision, guest support, and direct customer interaction.
- **Organization and proactivity:** Ability to set up and organize environments (e.g., breakfast room, stocks, children's spaces), in addition to maintaining an efficient workflow.
- **Creation and Design:** Interior Design background and strong sense of layout, aesthetics and spatial organization.

Web Development Projects

Jasmine's Juice – E-commerce

A responsive e-commerce landing page for a fictitious natural juice brand.
